

Nader Ben Salah

BACKEND & PLATFORM ENGINEER | DATA SCIENCE ENGINEERING STUDENT

nader.bensalah03@gmail.com | +216 23032610 | linkedin.com/in/naderbensalah | github.com/naderite

SKILLS

Backend: TypeScript, Node.js, NestJS, Python, FastAPI, Django, REST APIs, WebSockets
Distributed Systems: RabbitMQ, event-driven workflows, retries/DLQs, asynchronous processing
Databases & Cache: MongoDB, PostgreSQL, Redis, SQL Server
API & Security: OpenAPI, JSON Schema, Zod, OAuth, JWT, API keys, permissions & entitlement guards
Platform & DevOps: Docker, Docker Compose, AWS, GCP, Terraform, Linux, Git/GitHub, CI/CD, Jenkins

PROFESSIONAL EXPERIENCE

Defendr

Backend Platform Engineer

Jul 2026 - Present | Full-time Contract

Transitioned directly from the AI Engineer internship into the full-time platform role.

- Architected 5+ independently deployable backend services and implemented 40+ REST endpoints plus WebSockets with TypeScript, NestJS, MongoDB, Redis, and RabbitMQ.
- Migrated monolithic/tightly coupled workflows toward broker-based microservices with asynchronous scheduling, retries/dead-letter queues, caching, and rate limiting.
- Standardized multi-tenant access, OAuth/Clerk, JWT, API keys, permissions/entitlements, and service contracts with OpenAPI, JSON Schema, and Zod.

Artificial Intelligence Engineer Intern

Jun 2026 - Jul 2026

- Designed an AI-assisted esports result workflow evaluated on an initial dataset of ~50 match screenshots, using a Qwen vision model for structured extraction and winner interpretation.

Frontend Developer | Demarky

Dec 2025 - May 2026 | Freelance

- Developed ~15 reusable React editor components while preserving consistency between the interactive editor and independently generated static pages used for hosting.

Flutter Developer | Zorro Digital

Nov 2025 - Jan 2026 | Freelance

- Sole developer for 2 Flutter applications totaling 30+ screens; shipped the client app to Google Play and supported ~100 monthly active users before marketing launch.
- Implemented authentication, service discovery, request tracking, notifications, geolocation/phone verification, localization, image compression, 3D model viewing, Supabase, and Firebase Auth/Analytics/Crashlytics.

Data Engineer Intern | Talan Tunisie

Jun 2025 - Aug 2025 | Tunis, Tunisia

- Collaborated with 2 developers in a 3-person team while owning the data-engineering layer of a 3-service application, integrating Spark/Kafka workflows with MongoDB and Neo4j and deploying the system on AWS.

Software Developer Intern | Mir-acle

Aug 2024 - Sep 2024

- Centralized 1,000+ research records through Django/PostgreSQL APIs as the sole developer working with the researcher/CEO, delivering React smart filtering and statistical dashboards.

SELECTED PROJECTS

SupportAI - Customer Support Agent

- Collaborated in a 2-person team using Gemma, FastAPI, and Supabase; the agent responds to customer chats and flags conversations requiring administrator intervention.

DevOps CI/CD Pipeline - Spring Boot

- Engineered and ran a solo end-to-end Jenkins pipeline covering Maven build/tests, JaCoCo reporting, SonarQube quality gates, Nexus publishing, Docker image delivery, Docker Compose deployment, and Prometheus/Grafana monitoring.

Highly Available Web Application on AWS

- Designed a 2-AZ network with 6 subnets (4 private, 2 public), 4 EC2 instances, ALB/Auto Scaling, and Aurora PostgreSQL; configured the infrastructure manually through the AWS console.

EDUCATION

National Engineering Degree in Data Science | Faculty of Sciences of Tunis

Expected Sep 2027

Integrated Preparatory Cycle - MPI | Faculty of Sciences of Tunis

Sep 2022 - May 2024

LEADERSHIP & AWARDS

CEO & Co-Founder, CarthaPlay: led a 3-founder startup, coordinated up to 8 interns, supported ~80 child testers, secured 4 partnerships and 1 client, and entered Honoris, Impact Partner, and Startapii incubation programs.

IEEE Computer Society Chapter: Chairperson (Sep 2025 - Apr 2026), after Vice Chair; designed and delivered 20+ technical sessions reaching 250+ learners.

Entrepreneurship: 1st Prize - D-Clickathon | 1st Place - JET Impact | 3rd Place - NXTthon

CERTIFICATIONS & LANGUAGES

AWS Academy Cloud Foundations | Databricks Fundamentals | English: C1 | French: B2 | Arabic: Native
